SUPPLEMENTAL INTERVIEW OF D.V. HARKNESS

Having interviewed D. V. Harkness on a prior occasion, see File # 003116 dated 10/26/77, I spoke to him only as to his testimony before the Warren Commission. He was asked, "was anyone around in the back when you got there?" His answer was "There were some Secret Service agents there, but I didn't get them identified. They told me that they were Secret Service."

D.V. Harkness told me that there was quite a bit of confusion and he would have to say that he may have assumed that the men were Secret Service. They could have been from some other agency.
